

Retrofit Recycling, Inc.
2960 Yorkton Blvd.
Little Canada, MN 55117

March 16, 2006

Dear Mr. Harrington,

Retrofit Recycling, Inc. has provided Belair with many years of valuable service, primarily in pre-demolition regulated waste removal, such as PCB and mercury removal. They have also provided us with hazardous and universal waste recycling.

In our experience, working with Retrofit Recycling is beneficial to our demolition process. Not only is RRI accommodating to our busy schedules, but they prove to be equally accommodating to the unexpected. RRI is cooperative and timely with the necessary paperwork. The staff is professional and courteous; qualified and skilled.

Belair Excavating would like to thank Retrofit Recycling for the quality service they've provided us in the past, and look forward to equally successful future projects.

Sincerely,

Belair Excavating
